TECHNICAL PROJECTS

Horizons Library 🌿 - Website | GitHub | Demo
Need information on your favorite Animal Crossing villagers and items? Look no further!
• Created a multi component Vue.js front end application.
• Featured Bootstrap Vue for mobile responsiveness and pleasant UX/UI.
• Uses Axios to GET object data from ACNH API.

Gobbler 🦃 - GitHub | Demo
Celebrate by contributing to a sponsored charitable cause. Interact and discover what Thanksgiving is all about.
• Designed a React client side for visual interaction and exploration.
• Made use of container components and functional components to store state, and display stateless UI when needed.
• Incorporated Redux + Thunk middleware to respond to and modify state change.
• Engineered a Rails API with SQLite to perform CRUD actions.

Turtles-App 🍕 - GitHub | Demo
Who doesn't love pizza? Feed a turtle your favorite classic (or obscure) pizza slices.
• Created a user friendly single paged HTML, CSS, and JavaScript front end application.
• Featured Object Oriented JavaScript to encapsulate related data and behavior.
• Handled interaction between client and server asynchronously with AJAX calls and JSON as a communication format.

WORK HISTORY

Lincoln Financial Group - Case Manager   **2018**
• Conducted investigations to determine whether or not to accept liability and to what degree.
• Consistently used Excel Spreadsheet Software to manage, create and manipulate great deals of data.
• Provided excellent customer service, including helping customers with any troubleshooting issues.
• Regularly maintained lowest pipeline of claims on the team through an organized plan of action with the customer.

MetLife - Case Manager   **2017-2018**
• Proactively would communicate with each claimant to set expectations for the claim process.
• Mastered all company proprietary electronic system-of-recordings to track and review data.
• Earned contract extensions due to the ability to make a positive impact on project goals.
• Received additional remote job duties to aid with other departments due to maintaining a steady work load.
